# 1 Foreword

---

I am pleased to publish the statistical report of the Insolvency Service of Ireland (ISI) covering the third quarter of 2019 (Q3). Key statistics for Quarter 3 2019 are as follows:

- 432 Protective Certificates
- 271 Arrangements approved
- 44 Bankruptcies

This in comparison with Quarter 3 2018 shows:

- Arrangements approved down 11%
- Protective Certificates up 3%
- Bankruptcy Adjudications down 31%

The ISI is working on a strategic communications plan to increase awareness of insolvency solutions and to reduce the perceived barriers to taking up those solutions by mainstreaming insolvency as an intrinsic and acceptable part of economic life in Ireland.

*These statistics are for information purposes only. No person should place reliance on the accuracy of the statistics, nor should they act solely based on them. The statistics are primarily based upon cases created by duly authorised Approved Intermediaries and Personal Insolvency Practitioners on the ISI Case Management System, the official registers of Approved Intermediaries and Personal Insolvency Practitioners and the statement of affairs submitted by those seeking to be declared bankrupt. Figures cover the period 01 July 2019 to 31 September 2019, unless otherwise stated.*

## 2 Case Management – DRN, DSA, PIA

**432 Protective Certificates in Q3**

**9,314 Protective Certificates since launch**

**271 Arrangements in Q3**

**6,320 Arrangements since launch**

### 3 Outcome of Protective Certificates

---

The ISI has undertaken an analysis of Protective Certificates issued and their outcomes. The analysis has been broken down into three categories:

- **Yes Vote:** Personal Insolvency Practitioner (PIP) successfully uses the Protective Certificate period of 70 days to put an agreement in place between the debtor and his or her creditors, following a vote at the creditors' meeting.
- **No Vote:** PIP is unsuccessful in reaching an agreement, following a vote at the creditors' meeting, between the debtor and his or her creditors.
- **Protective Certificate Expired:** The Protective Certificate can expire, without a formal insolvency solution in place, if the PIP is of the view that a Debt Settlement Arrangement/Personal Insolvency Arrangement is no longer appropriate. For example, where further time is required to prepare the case, where the debtor's circumstances have changed, where the PIP is of the view that a No vote is inevitable or where an alternative solution has been put in place between the debtor and his or her creditors. Once a Protective Certificate expires, information relating to any further action taken by the debtor in relation to their financial situation is not readily available to the ISI as the Debt Settlement Arrangement/Personal Insolvency Arrangement procedure is deemed to have ended.

Where a proposal for a PIA is not approved at a creditors' meeting, the Court may be asked to review the case in certain circumstances, in accordance with Section 115A of the Personal Insolvency Act. Further details concerning the Section 115A Court Review process is contained in the [ISI's Annual Report for 2017](#). It is intended that further analysis will also be included in future Annual Reports.

## Outcome of Protective Certificates (from 2013 Q4 to 2019 Q3)

Outcome	DSA	PIA	Total
YES vote	70.4%	50.0%	53.2%
NO vote	19.8%	40.2%	37.0%
Protective Certificates expired	9.8%	9.8%	9.8%

## 4 Arrangement Debt – DRN, DSA, PIA

### €70 Million Arrangement Debt

*\*Other debt includes trade creditors, connected creditors, contingent debt, hire purchase, personal guarantees, utilities, store cards/catalogues and professional fees.*

The total debt involved in the 271 approved arrangements in Q3 is approximately €70 million. You can find a breakdown of the type of debt in the chart above and the table below.

Type of debt	Value of debt (millions)	As a % of total
BTL Mortgages	€ 17.685	25.3%
PPR Lender	€ 35.830	51.1%
Financial Institutions	€ 7.457	10.6%
Credit Union	€ 1.521	2.2%
Revenue debt	€ 3.513	5.0%
Other debt	€ 4.063	5.8%
<b>Total Q3 debt</b>	<b>€ 70.069</b>	<b>100.0%</b>

## 5 Applicant Profile – DRN, DSA, PIA (from 2013 Q4 to 2019 Q3)

An individual application is an application by a sole debtor.

Where there are two (or more) debtors who are jointly liable for **all** of the debts to be included in a DSA or a PIA, a joint application is appropriate.

An interlocking application would be appropriate where two (or more) PIAs are to be administered in common - usually because of the financial relationship of the debtors involved. Examples would be a couple or business partners, where they are jointly liable for some - but not all - of the debts to be included in the PIA.

## 6 Bankruptcy

### Bankruptcy Adjudications

The one-year bankruptcy term was introduced on the 29<sup>th</sup> January 2016.

### €87 Million Bankruptcy Debt in Q3

The total debt involved in bankruptcy adjudications for Q3 is approximately €87 million. This comprises 45.2% secured debt and 54.8% unsecured debt. In the case of secured debt, it is likely that current market values of securities are significantly below debt levels.
